ALEX KINSELLA

Ph.D. Candidate in Physics
University of California, Santa Barbara
6118 Broida Hall, Santa Barbara, CA 93116
akinsella@ucsb.edu
Webpage: kinsella.earth

Career Objective

Seeking a postdoctoral position at the intersection of ocean physics, global climate, and biogeochemistry.

Physics Ph.D. candidate, transitioning from string theory to physical oceanography, eager to apply extensive graduate level coursework in oceanography, climate and numerical modeling, and to expand my current research in ocean dynamics.

Education

2015-21 **UC Santa Barbara**
Ph.D. Physics, June 2021 (expected)
Advisor: David R. Morrison
Dissertation Title: M-Theory/Heterotic Duality in the Half-G_2 Limit
M.A. Physics, May 2018

2011-15 **Stanford University**
B.S. Mathematics and Physics (with distinction and physics departmental honors)
Honors Thesis Advisor: Sean Hartnoll
Honors Thesis Title: No Negative Modes About the Axionic Wormhole Instanton

Publications

Author ordering in high energy theoretical physics is alphabetical by last name

In prep. B. Acharya, A. Kinsella, and D. Morrison. "Heterotic Duals of M-Theory on Joyce Orbifolds." In preparation for *Journal of High Energy Physics*.

In prep. B. Acharya, A. Kinsella, and E. Eik Svanes. "Local Heterotic Reductions." In preparation for *Journal of High Energy Physics*.

2018 S. B. Giddings and A. Kinsella. "Gauge-invariant observables, gravitational dressings, and holography in AdS." *Journal of High Energy Physics*. doi.org/10.1007/JHEP11(2018)074

Grants, Fellowships, and Awards

2020-21 UC Santa Barbara National Science Foundation Extension Fellowship ($24,000)

2015-20 National Science Foundation Graduate Research Fellowship ($102,000)

2015 Award for Excellence in Honors Thesis Presentation, Stanford Oral Communication Program ($350)

2013 Stanford Vice Provost for Undergraduate Education Major Grant ($6,000)

2012 Best Poster Presentation, Stanford Earth Science Undergraduate Research Program

2010 Manson Scholar, The Bay School of San Francisco
Awarded by the faculty and administration for intellectual merit, commitment to the school's values, and leadership in the school community. Included a full four-year college scholarship.

Selected Presentations

2019 **Heterotic Duals of M-Theory on Joyce Orbifolds**. Talk at the Simons Collaboration Meeting on *Physics and Special Holonomy*, Kavli Institute for Theoretical Physics, April 2019

2017 **Diffeomorphism-Invariant Bulk Observables in AdS**. Talk at Pacific Coast Gravity Meeting, UC Santa Barbara, March 2017

2013 **Fully Coupled Models of (Idealized) Buildings and Seismic Waves from Earthquakes**. Poster at 2013 Southern California Earthquake Center Annual Meeting, Palm Springs, CA

2012 **Rapid Lateral Variation of Seismic Anisotropy in the Salton Trough, Southern California**. Poster at 2012 American Geophysical Union Fall Meeting, San Francisco, CA

2016-20 UCSB Internal Seminars
Physics of the Ocean and Climate, May 2020
Seiberg-Witten Theory and 4-Manifolds, February 2019
The Supersymmetric Proof of the Index Theorem, May 2018
The Category of Topological B-Branes, February 2018
BRST, Gauge Theory, and Cohomological Field Theory, January 2018
The Kodaira Embedding Theorem, November 2017
Mirror Symmetry for G_2 Manifolds from Dual Tops, November 2017
D-Branes and Matrix Theory, October 2017
The A- and B-Model Topological Field Theories, May 2017
The Virasoro Algebra, January 2017
Lattice Gauge Theories, October 2016

Teaching and Mentorship Experience

2019-20 **Teaching assistant**, UC Santa Barbara Physics Department
Physics 219: Statistical Mechanics (Winter 2020)
Physics 210A: Electricity and Magnetism (Winter 2020)
Physics 101: Complex Analysis (Spring 2019)

2015 **Residential counselor**, Stanford Pre-Collegiate Studies
Ten week program in which I tutored high school students in special relativity, quantum mechanics, and number theory

2014-15 **Tutor**, Stanford University Mathematics Organization
Linear algebra, multivariable calculus, and differential equations

2013 **Counselor,** Women in Physics Program, Stanford Society of Physics Students
Events for freshman women interested in physics and physics demonstrations for local Girl Scouts

Service

2017-18 Co-Organizer of the UC Santa Barbara Mathematical Physics Seminar

Skills

Extensive graduate-level coursework in oceanography, physics, and mathematics
Relevant graduate-level coursework for oceanography: physical oceanography, chemical oceanography, geological oceanography, biogeochemistry, climate modeling, fluid mechanics, computational fluid dynamics, numerical methods, seismology

Experience with ROMS, NAM, ocean circulation inverse models, and data analysis via spectral methods and mode decompositions

Proficiency in Matlab, Mathematica, Python. Experience with Java.

Experience with numerical solution of differential equations

Memberships

2017-21 Simons Collaboration for Special Holonomy in Geometry, Analysis, and Physics

Association for the Sciences of Limnology and Oceanography (ASLO)

American Physical Society (APS)

American Geophysical Union (AGU)

Broader Interests and Activities

Birdwatching
Member of National Audubon Society and Santa Barbara Audubon Society

Men's artistic gymnastics
Member of UC Santa Barbara Gymnastics Club and National Intercollegiate Association of Gymnastics Clubs

Backpacking and hiking
Completed Wilderness First Responder certification and a 23-day outdoor leadership course
